

# The Rose Room

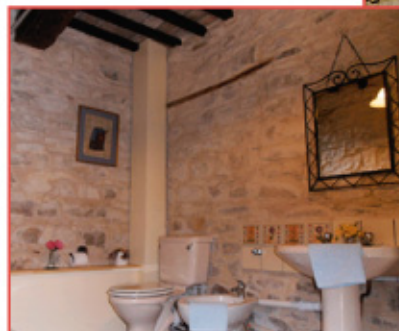

Full of character, charm and charisma it's the perfect cosy private haven. Constructed centuries ago with one metre thick stone walls. The Rose room is very quiet & intimate and accessed through a private independent entrance via double glazed doors. Facing east with views across the farmhouse terraced gardens to the distant medieval town of Macerata. The Rose room has original hand hewed oak beams, original ceiling tiles and exposed stonework. A wood burning stove further adds to the ambience of this beautiful room. This room has a full sized refrigerator and guests enjoy shopping locally, to stock up with wines, beers, fresh salads, sliced meats, cheeses and choose a private seating area in the gardens or olive groves to picnic, light some candles and gaze up at the starlit sky.
